EDUCATION

SNHU - Southern New Hampshire University

B.Sc(Hons) in Computer Science

Oslo, Norway

Expected Graduation, September 2025

Deree - The American College of Greece

B.Sc(Hons) in Information Technology

Athens, Greece

September 2023 - Mai 2024

- **Concentrations:** Software Development
- **GPA:** 3.8/4.00
- **Related Coursework:** Information Technology Fundamentals, Introduction to Programming, Multimedia and Web Design, Cybersecurity, Operating Systems, Computer Architecture, Object Oriented Programming

EXPERIENCE

Icontap

Full Stack Engineer Internship

Athens, Greece (remote)

January 2024 – July 2024

- Successfully integrated Swagger within the application to document API endpoints and improve overall development efficiency by providing clear, interactive documentation for developers to understand.
- Engineered robust backend solutions using PHP and Laravel, which improved system scalability and maintainability, supporting a growing base of users.
- Built and managed Docker containers across multiple stages of development, ensuring consistent and reproducible environments.
- Optimized and updated MySQL relational databases, enhancing performance and data retrieval speeds, thereby improving overall application responsiveness.
- Developed and maintained multiple custom front-end components utilizing JavaScript and React.js.
- Collaborated closely with a team of 4 and contributed ideas in planning sessions, demonstrating strong teamwork and communication in a fast-paced startup environment.
- Conducted extensive research on potential new features, successfully proposing and leading the integration in our web application.

LANGUAGES

English - *Fluent*
